PROFESSIONAL LIGHTING

30W UV SUPPLEMENTAL

LIGHT LED BAR

Create a complete premium fruit or flower by using ultraviolet signalling on your grow. This technology is a powerful tool for growers that are interested to create a unique final crop, affecting its flavour, smell and increasing by up to 30% the main substance to be extracted. It will also help to control mold formation with gentle UV-B doses and reducing the need for chemical interventions by the effect of UV-A.

30 W

100 mW UV-B (280-315 nm)

12000 mW UV-A (315-400 nm)

CE · RoHS · EMI SUPPRESSION & EMC CERTIFIED · LVD CERTIFIED · Plug & Play · IP65 · CONTROL TECHNOLOGY · DESIGNED & ENGINEERED BY LUMATEK IN THE UNITED KINGDOM · 1 YEAR WARRANTY
