ECS-12

TrolMaster 4-Pin Waterproof Splitter Cable

The ECS-12 is a robust 4-Pin IP65 X-Splitter cable designed to interconnect ThinkGrow LEDs or LMA-T modules within the ThinkGrow lighting system. Its waterproof and dustproof construction makes it ideal for use in challenging environments where moisture and dust are prevalent. Constructed with high-quality materials, the ECS-12 cable offers excellent resistance to abrasion, corrosion, and environmental stress, ensuring reliable operation even in extreme conditions. This cable is perfect for both indoor and outdoor applications, providing flexibility and durability to meet the demands of various horticultural setups.

The ECS-12 features 2 female cable ends and 2 male cable ends that can be utilized as required. Each end is equipped with secure locking mechanisms to ensure a tight connection, preventing accidental disconnections. For added convenience and protection, the cable includes plastic caps that can be used to seal off any unused ends, thereby maintaining the integrity of the connection and preventing the ingress of dust and moisture.

Engineered for dependable performance, the ECS-12 facilitates efficient and secure connections between LED fixtures or LMA-T modules, streamlining the wiring process and enhancing system flexibility. With its IP65 rating, the cable ensures long-lasting performance in adverse conditions.

Specifications

ECS-12

Product Length

Product Length	40 mm

Working Environments

Temperature	32-122°F (0-50°C)
Humidity	≤90%

Package Dimensions

Size	3.35inch / 85mm(L) x 3.15inch / 80mm(W) x 2.03inch / 51.5mm(H)

Package Contents

TrolMaster 4-Pin Waterproof Splitter Cable	1pc
Vent Plug	2pcs

RoHS

TrolMaster
