

DOSATRON®

An Ingersoll Rand Business

ESQUEMAS

Dispensador de Líquido Dosatron

Modelo # D14MZ1000 - 14 GPM

1:1000 - 1:100

4.3 - 85 PSI

Sugerencias de Instalación:

Filtro de malla 200/80 micrones antes de la unidad

Supresor del golpe de ariete a la salida de la unidad para protegerla del martilleo de agua en reversa

Sugerencias de Mantenimiento:

Reemplace los sellos de inyección cada 12 meses
