

Available in:  
**4 AMP**

### Automatic - Professional

- Adjust the fan/s speed automatically in 2 step, according to the temperature
- It comes with a dimmer to set the minimum speed of your fan/s, and with a thermostat to set the desired temperature
- Up to 4 AMP
- Really easy to use, it only has two knobs
- Includes sensor for indoor temperature

### Technical data

|                            |                          |
|----------------------------|--------------------------|
| Temperature range          | : 0 - 40 °C              |
| Power supply               | : 1-fase 220/230V – 50Hz |
| Protection class           | : IP44                   |
| Measures of the dimmer     | : 120 x 40 x 50 mm       |
| Measures of the thermostat | : 100 x 50 x 50 mm       |

The design and the writing of this leaflet have been realized with the most thorough accuracy. We do not take responsibility for printing or typing mistakes.

A = Set the desired temperature  
B = Inlet for fan/s

C = Temperature sensor  
D = Set the minimum speed of the fan/s

NOTE: **NEVER** surpass the maximum charge recommended! (AC motors)

EASY AND SIMPLE
