Advanced Nutrients®

The Sensi Terra™ Series: Designed for Superior Results in Soil

Introducing the Sensi Terra™ series to the European market – a new base nutrient specially designed for pre-fertilized and soilless blends.

This results-driven fertilizer is both simple and easy to use, while packing more nutritional value in every pour than competitor products. With a full suite of chelated micronutrients, your plants enjoy the robust nutrition they need to reward you with bigger, frostier, resin-rich flowers.
We designed the Sensi Terra™ series to Hit the Shift, meeting your crop's phase-specific nutritional requirements in both the vegetative and bloom phases for optimal plant development when growing in soil and soilless blends.

Enjoy the best returns, at a competitive price.

Competitively priced with a more complete nutrient package:

Sensi Terra™ 1 - Grow	N	P_2O_5	K_2O	Mg	Fe	Mn	B	Zn	Mo
Sensi Terra™ Grow	2.6	1.1	3.1	1.0	0.02	0.01	0.03	0.005	0.0047
Competitor's Claim	2.6	1.1	3.1	0.6	0.01	0.01	0.1	0.005	0.001

Sensi Terra™ 2 - Bloom	N	P_2O_5	K_2O	Mg	Fe	Mn	B	Zn	Mo
Sensi Terra™ Bloom	1.8	1.8	5.1	0.8	0.02	0.01	0.03	0.005	0.0047
Competitor's Claim	2.1	1.6	3.7	0.5	0.01	0.01	0.005	0.005	0.001

Precise Nutrient Ratios for Every Phase of Plant Development

It's a little known fact that the plant we grow requires nitrogen to drop around week two of flower, when the potassium levels should rise. This is just one part of what makes Advanced Nutrients' Sensi Terra™ so unique. With this innovative easy-to-use base nutrient solution, growers feed their crops Sensi Terra™ Part 1 through the transition from veg to bloom, then Hit the Shift and switch to Sensi Terra™ Part 2 at week 2 of flowering.

With Sensi Terra™ Part 2, your plants receive the reduced nitrogen and optimal phosphorus to potassium ratio needed to maximize cannabinoid and terpene production at the exact right time.

Advanced Nutrients®

Sensi Terra™ series

Designed to optimize growing in soil, Sensi Terra™ Part One and Sensi Terra™ Part Two work synergistically to provide the most complete nutrient cycle ever created for your growing medium.

- pH stabilized (lower pH swings than competitors)
- provides higher levels of multiple micronutrients
- improved chelates for increased uptake
- reduced salinity - provides exactly what the plant needs with less waste (at a lower EC than competitors)
- hits the shift with nitrogen drop in mid-bloom and other specific macro and micro ratios

How to use Sensi Terra™ Part One and Part Two:

Use between 1 - 7ml/L from clone/seeding stage through until final flush. Add 2-4 times/week as necessary. It is recommended to use Sensi Terra™ Part One and Part Two together.

Sensi Terra™ Part One								
Phase		Rooting/Cloning	Grow				Bloom	
Lighting Hours		18	18	18	18	18	12	12
Week		0-1	1	2	3	4	1	2
Sensi Terra™ Part One		1-3.5	3-5.5	3-5.5	3-5.5	5-7	5-7	5-7
Additives	Voodoo Juice® Plus	1/week	1/week	1/week	1/week	1/week	1/week	1/week
	Sensizym®	-	2	2	2	2	2	2
	B-52®	-	2	2	2	2	2	2

Sensi Terra™ Part Two									
Phase		Bloom							
Lighting Hours		12	12	12	12	12	12	10-12	10-12
Week		1	2	3	4	5	6	7	8
Sensi Terra™ Part Two		-	-	5-7	5-7	5-7	4-6	4-6	Flush
Voodoo Juice® Plus		1/week	1/week	1/week	1/week	1/week	1/week	1/week	Flush
Additives	Sensizym®	2	2	2	2	2	2	2	Flush
	B-52®	2	2	2	2	2	2	2	Flush
	Hammerhead™	-	-	2	2	2	2	2	Flush

Every purchase of Sensi Terra™ One and Two is backed by Advanced Nutrients' ironclad 100% Money-Back Grower Guarantee. Growers will also enjoy 24-hour support, Monday through Friday, from our expert grower support team.

Contact your sales representative to order Sensi Terra™ One and Two now.
