GREEN FINGERS IN THE BOTTLE

An excellent choice for any way of growing: for all plants and small trees

For plants with a high light and nutrition consumption, to fruit trees, shrubs, to bonsais and cacti:

While plant boosters with silicon on one side and calcium and magnesium on the other side are usually sold as separate products.
All 3 of these ingredients are now combined in one product, making it easy to save money.

Whether under LED lighting in the hobby grow tent in the basement, or on the corn field during the first spraying cycle:

SiCaMag® 's premium ingredients protect what is good. Your plants become more stress resistant, heat resistant, powerful and absorbs nutrients more easily even under adverse conditions.

Your plants will not be indestructible with SiCaMag® – but they will forgive you for gross mistakes throughout the cycle.

Vegan & ohne Gentechnik

*** Für alle Pflanzen & Kleinbäume GEEIGNET

Laborgetestet & zertifiziert

100% bioverfügbare Inhaltsstoffe

SiCaMg

From hobby growers to professional farmers

SiCaMag® is what you call; the ‚green fingers' in the bottle of professional farmers, gardeners, tree nurseries, growers of exotic or delicate plants, etc.

Our premium ingredients in SiCaMag are added in such a way that even beginners cannot go wrong using this „Energy Drink for Plants":

Accidentally dosed more than recommended? No problem! With SiCaMag® that is not a problem, this overdose will not damage the plants.

Great for plant lovers who have not always had the best results so far – but as well for the professional farmer who wants a higher yield and stronger plants!

BOTTLE 100 ml

CARTONS (pcs.)	126
CARTONS PER LAYER	8
LAYERS ON PALETTE	3
NUMBER OF BOXES ON PALLET	24
NUMBER OF BOTTLES ON PALLET	3024
NUMBER OF LITRES ON PALLET	3024
EAN code	8 055510 231583

BOTTLE 500 ml

CARTONS (pcs.)	46
CARTONS PER LAYER	8
LAYERS ON PALETTE	3
NUMBER OF BOXES ON PALLET	24
NUMBER OF BOTTLES ON PALLET	1104
NUMBER OF LITRES ON PALLET	512
EAN code	8 055510 231590

BOTTLE A 1 LITER

CARTONS (pcs.)	12
CARTONS PER LAYER	8
LAYERS ON PALETTE	3
NUMBER OF BOXES ON PALLET	32
NUMBER OF BOTTLES ON PALLET	384
NUMBER OF LITRES ON PALLET	384
EAN code	8 055510 231606

CAN 5 LITER

CARTONS (pcs.)	4
CARTONS PER LAYER	8
LAYERS ON PALETTE	3
NUMBER OF BOXES ON PALLET	24
NUMBER OF BOTTLES ON PALLET	96
NUMBER OF LITRES ON PALLET	480
EAN code	8 055510 231613

CAN 20 LITER

LAYERS ON PALETTE	12
NUMBER OF BOXES ON PALLET	2
NUMBER OF BOTTLES ON PALLET	24
NUMBER OF LITRES ON PALLET	480
EAN code	8 055510 232306

Custom Notes

Premium silicon: *For a strengthened cell nucleus that you can see and feel*

Although touted as a premium building block of the plant world, but often delivered only in inferior quality: SiCaMag® silicon is different. We use the highest quality silicon from exclusively organically stabilized ortho-silica:

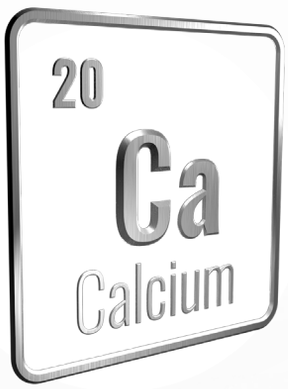

Diseases and pests can pack up - or better attack the plants of your neighbors, because with SiCaMag® your plants become three times more resistant and stronger!

Through SiCaMag® your plants resemble a child in the growth phase: premium silicon supports the healthy growth of your plants!

Your plants will be better equipped to manage abiotic stresses like drought and heat.

Is your plant already ravenous? The silicon promotes the nutrient uptake of your plants and thus the flower, stem, and fruit formation!

A real powerhouse: silicon is deposited in the outer layers of the leaves - and stabilizes the load-bearing capacity of your plants.

Calcium: *the alpha and omega of plant development*

Calcium activates the enzyme systems and increases the immunity of your plant against external influences:

Too intense light source? Never mind (anymore)! The calcium in SiCaMag® increases the heat resistance of your plants. Even with stronger light incidence your plants defy the artificial sun like a muscleman in the tanning salon.

Fit as a green sneaker: Organic acids are neutralized with the help of calcium, which reduces the likelihood of disease.

Calcium helps your plants build strong roots and tissues, grow magnificently, and support cellular functions!

Magnesium: *Rich & strong green leaves even with less light*

Magnesium participates in numerous physiological and biochemical processes in the plant:

Always full-saturated green leaves that makes you happy: Magnesium is a central building block of chlorophyll in the plant. It makes you green with envy...

Always at full throttle: Magnesium makes your plants the world champions of photosynthesis.

Fancy more fruit? SiCaMag® increases the fruity yields of your small trees.

With magnesium, the roots of your plants will burrow as readily as moles - reaching even deeper layers of soil for valuable nutrients!

It is that simple!

Add plant booster SiCaMag® as an additive to the fertilizer SiCaMag® can be used in any plant substrates, hydroponic NFT systems, universal soil, coconut soil, special soil, etc.

Dosage recommendation:

Growth phase: 0,5-1 ml	*SiCaMag® per 6 litres of irrigation water*
Flowering phase: 1-2 ml	*SiCaMag® per 6 litres of irrigation water*
Foliar spray: 0.1 ml	*SiCaMag® per 1 litre of irrigation water*

Fertilize plants and small trees as usual

Now it is time to fertilize as usual!
Your plants will soon thank you with gorgeous green leaves, stable stem and branches, resistant roots, and huge flowers.

Do you have any questions?

You are welcome to contact us at any time so that we can clarify your unanswered questions.

SiCaMag® is also available in large containers for fertilizer dealers.
We are also at your disposal if you are interested in a cooperation.
