SKUNK TERMINATOR

Skunk Terminator is an odor neutralizer specially designed to eliminate terpenes—the most characteristic of which is Beta-Myrcene—and pyrazines, molecules that cause the smell of cannabis and tobacco. This product is suitable for eliminating the odors of cannabis clubs, CBD cultivation and individual users, among others.

Skunk Terminator is an innocuous polymer that contains a formula based on natural and synthetic essential oils. The polymeric base guarantees us a slow and constant evaporation of the odor neutralizers, which change into a gaseous state when they evaporate, remaining in the air until they come into contact with the odor molecules. The neutralization is achieved by way of various mechanisms of action that break the chemical bonds between the molecules, transforming them into odorless molecules.

SKUNK TERMINATOR GEL 33 g

Dimensions of gel	70X30X15 mm
Weight	33 grams
Display box 24 units	254X160X84 mm
Weight	1.24 kg
Scope	Surfaces up to 50 m^2
Duration	6-8 weeks, depending on the temperature, the evaporation surface and the airflow.
Instructions for use	Open the packaging, keep it within the protective cover, leave in a well ventilated place.
Applications	Individual users, small crops or medical cannabis, among others.

Notes: If the product is used in very confined spaces such as the interior of a vehicle and the smell is too intense, apply until the odor is neutralized and store in a metal or glass container until you use it again.

PHYSICOCHEMICAL PROPERTIES

Appearance	Solid gel
Color	Yellow and orange
Odor	Citrus and floral
Concentration	73% essential oils

STORAGE

Store the product in a dry place at a temperature above 0ºC.

In order to ensure the lifespan of the product, it is recommended to avoid prolonged storage at temperatures above 35ºC.

These storage conditions guarantee the effectiveness of the product for two years.

SAFETY TIPS

Keep out of the reach of children.

Keep away from sources of heat, flames or any other source of ignition.

After handling, wash hands carefully with water and soap.

May cause skin, eye or respiratory irritation, or allergy. If you exhibit any of these symptoms, call the emergency medical number indicated on the packaging and provide the UFI code.

WARNING

H315: Causes skin irritation. H319: Causes serious eye irritation. H317: May cause an allergic reaction on the skin. H335: May irritate the respiratory tract. H412: Harmful to aquatic life with long lasting effects. P264: Wash... thoroughly after handling. P302+P352: IN CASE OF CONTACT WITH SKIN: Wash with plenty of water/... P305+P351+P338: IN CASE OF CONTACT WITH EYES: Carefully rinse with water for several minutes. Remove contact lenses if you are wearing them and are able to do so easily. Keep rinsing. P403+P233: Store in a well ventilated place. Keep container hermetically sealed. P501: Dispose of contents/container in accordance with local, national and international legislation.

SKUNK TERMINATOR GEL 200 g

Dimensions of gel	35X105X15 mm
Weight	200 grams
Display box 50 units	367x305x207 mm
Weight	10.95 kg
Scope	Surfaces up to 250 m^2 in ducts or airflow.
Duration	6-8 weeks, depending on the temperature, the evaporation surface and the airflow.
Instructions for use	Open the packaging, remove the protective screen, place the gel in a ventilated area, in the air extraction or ventilation duct. After handling, wash hands with water and soap.
Applications	Open the packaging, remove the protective screen, place the gel in a ventilated area, in the air extraction or ventilation duct. After handling, wash hands with water and soap.

SKUNK TERMINATOR GEL 800 g

Dimensions of gel	270X210X15 mm
Weight	800 grams
Display box 18 units	385x285x305 mm
Weight	16.40 kg
Scope	Surfaces up to 800 m2 in ducts or airflow.
Duration	6-8 weeks, depending on the temperature, the evaporation surface and the airflow.
Instructions for use	Open the packaging, remove the protective screen, place the gel in a ventilated area, in the air extraction or ventilation duct. After handling, wash hands with water and soap.
Applications	Especially indicated for eliminating the smells of cannabis clubs, CBD cultivation, selection and drying processes, any large interior surface and air extraction ducts.

NOTES

The suggestions and recommendations regarding the handling and use of our products are made to the best of our knowledge at the time of creating this technical sheet. We are not responsible for any possible negligence in the handling nor for the results obtained or damages derived from the inappropriate use thereof.
