PROFESSIONAL POTTING COCO MIX

FARMER'S CHOICE

COCO

Presentation for bags of

50 AND 120 LITERS

(Pursuant to Standard UNE-EN 12580)

DESCRIPTION AND BENEFITS

Made with a ratio of coco coir superior to that of blonde peat. **Coco coir** is a 100% natural and organic product. It has a great water retention capacity, up to 8 times its weight. Excellent re-moistening significantly superior to peat, great capacity for nutrient retention and cationic exchange.

STORAGE

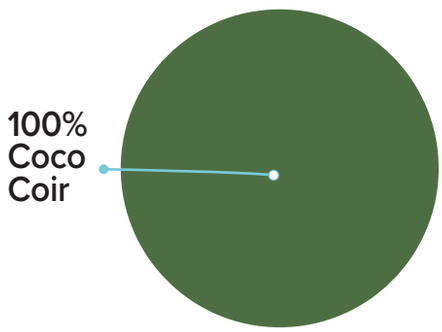

Store in a cool, dry place away from direct sunlight and isolated from any potential source of contamination.

Do not stack pallets to prevent tipping over and ensure safe handling of the product.

INDICATED FOR

- Cultivation of plants indoors and outdoors and suitable for all irrigation systems.
- Yields an excellent phase of growth and flowering.

RAW MATERIALS

CLASSIFICATION A

"Heavy metal content lower than the authorized limits for this classification".

MODO D'USO

- Substrate for plant pots.
- Cultivation in seedbeds.

OTHER INFORMATION

- Professional use.
- Do not ingest.
- P102: keep out of the reach of children.
- P270: do not drink, eat, or smoke while using the product.

STATEMENT OF ANALYSIS

Particle size distribution	0-10 mm
Fertilized	1.2 kg/m^3

	pH	EC
Saturated Paste Analysis Method	5.7-6.2	2-2.5 mS/cm

MANUFACTURED BY: COMERCIAL PROJAR S.A. - C/ La Pinaeta s/n P.I - Quart de Poblet - 46930 - Quart de Poblet (Valencia) **DISTRIBUTED BY:** 20817530T

PROFESSIONAL POTTING COCO MIX

FARMER'S CHOICE

COCO SAFETY DATA SHEET

1. IDENTIFICATION OF THE SUBSTANCE AND PREPARATIONS OF THE COMPANY OR ENTERPRISE

1.1. IDENTIFICATION OF THE SUBSTANCE OR PREPARATION

Product name: SELECT HORTITEC FARMER'S CHOICE COCO

1.2. USE OF THE SUBSTANCE OR PREPARATION

Intended uses: growing substrate.

1.3. COMPANY IDENTIFICATION DETAILS

Manufacturer/Supplier:	COMERCIAL PROJAR, S.A.
Street/Post office box:	C/ La Pinaeta, s/n
	Pol Ind. Quart de Poblet Postcode 46930,
Postcode/Town or city:	Quart de Poblet (Valencia) SPAIN
Telephone/Fax:	(+34) 96 159 74 80/ (+34) 96 192 02 50
Email:	projar@projargrop.com

1.4. EMERGENCIES

EMERGENCIES: NATIONAL INSTITUTE OF TOXICOLOGY

C/ Luis Cabrera, 9 28002 MADRID

Tel.: 0034 91 562 04 20

2. IDENTIFICATION OF HAZARDS

Hazard designation: not applicable.

This mixture is not classified according to Regulation (EC) no. 1272/2008 of the European Parliament and of the Council of 16/12/2008 on classification, labeling and packaging.

3. COMPOSITION/INFORMATION ON THE COMPONENTS

Composition: Coco Coir and Sphagnum Peat.

Substances hazardous to health or the environment according to Directive 67/548/EEC: not applicable.

4. FIRST AID

General instructions

Special measures not required.

Inhalation

Normally, the moisture content of the product means that powder is not generated. If it dries out, however, it may cause slight irritation in high concentrations, which is why it is recommended to use respiratory protection. In case of irritation, move to fresh air. In case of symptoms, consult a doctor.

Contact with skin

Although the product does not irritate the skin, wash skin with plenty of water and soap or mild detergent. In the event of persistent irritation of the skin, consult a doctor.

Contact with eyes

Fine dust particles may cause irritation. Wash both eyes with plenty of water for at least 15 minutes. From time to time, lift both eyelids and continue rinsing until all traces of the product are gone. If the irritation persists, consult a doctor.

Ingestion

If accidentally ingested, never induce vomiting; drink two or more glasses of water. Seek medical attention if symptoms persist.

Medical warning

None in particular.

5. FIRE PREVENTION MEASURES

Extinguishing agents

The product is not flammable, but in the event that it is present in a fire, act as follows:

- Extinguish with water fog or spray, chemical foam, dry powder or carbon dioxide (CO2).
- Use the smallest possible amount of water during the fire.
- Avoid unnecessary spills of the extinguishing agents, which may be contaminating.

Specific risks of the substance or preparation, the combustion products or the gases produced

In the event of contact with fire, they may cause smoldering and reignition.

Fire protection equipment

Depending on the scale of the fire, suitable protective clothing may be necessary: rubber gloves and boots, chemical/heat-proof suit and hood, face mask and self-contained breathing apparatus.

Further recommendations

Avoid allowing any products used during firefighting to drain into sewers, gutters or bodies of water.

6. MEASURES IN CASE OF ACCIDENTAL RELEASE

Individual precautions

Special precautions not required.

Precautions for the protection of the environment

Prevent spilled material from entering gutters, drainage systems or waterways. In the event of major spills or if the product contaminates lakes, rivers or sewers, inform the competent authorities according to the legislation.

Cleaning methods

Not applicable.

7. HANDLING AND STORAGE

Handling precautions

Maintain good personal hygiene. Before eating, drinking or smoking or after working, wash your hands and skin exposed to the product.

Storage conditions

Store in a cool, dry place.

8. EXPOSURE CONTROL/INDIVIDUAL PROTECTION

8.1. EXPOSURE LIMITS

No limits of occupational exposure are established.

8.2. EXPOSURE CONTROL

- **Technical measures:** it may be necessary to ventilate and evacuate the premises in the event of a high number of fine dust particles.
- **Respiratory protection:** the use of a respirator or mask is recommended in the event of a high number of fine dust particles.
- **Hand protection:** not applicable.
- **Eye protection:** use protective goggles in the event of a high number of fine dust particles.
- **Skin protection:** the use of special protective clothing is not required.

9. PHYSICAL AND CHEMICAL PROPERTIES

Important safety details

State of matter	Solid
Color	Brown
Odor	Mild odor
Boiling point	Not applicable
Flash point	Not applicable
Vapor pressure	Not applicable
Water solubility	Insoluble
Refractive index	-
pH	5-7
COV g/l	-

10. STABILITY AND REACTIVITY

Stability

Stable under normal storage and handling conditions (see section on storage).

Decomposition products

Not applicable.

11. TOXICOLOGICAL INFORMATION

11.1. ACUTE TOXICITY

There is no data available on tests performed on the preparation.

11.2. IRRITATION

- **Dermal contact:** non-irritating.
- **Contact with eyes:** mild irritation due to dust is possible.

11.3. SENSITIZATION

The product is not sensitizing.

12. ECOLOGICAL INFORMATION

There is no data available on tests performed. With normal use, no ecological damage is known nor expected.

13. DISPOSAL CONSIDERATIONS

- This product must not be poured down drains or waterways.
- Do not contaminate lakes, waterways or wells with the product or its packaging. Packaging and containers should be managed according to local regulations.

Product residues must be managed according to local regulations.

14. INFORMATION REGARDING TRANSPORT

Not classified as hazardous for transport.

15. REGULATORY INFORMATION

Labeling (CE)

The preparation is not classified as hazardous according to the Regulation on classification, packaging and labeling of hazardous preparations (RD 255/2003).

16. DISPOSAL CONSIDERATIONS
