4' LED Bar with 2x Spectrum Channels (Full Spectrum + Deep Red) for Model One System

4' LED Bar with 2x Spectrum Channels (Full Spectrum + Deep Red) for Model One System , the DR-1, is a standard 4' LED light bar that features full spectrum and deep red spectrum channels. It can be connected to a TrolMaster controller, allowing growers to select from a range of spectrum recipes for different crops and growth stages. This flexibility can be achieved through the on-board dimming knob or compatible controllers.
